

STYLE

**Complete Payroll, HR &
Workforce Management Platform**

STYLE - Complete Payroll, HR & Workforce Management Platform

STYLE is MSoft's integrated Payroll, Human Resources and Workforce Management platform, designed to automate payroll processing, streamline HR administration and simplify workforce management for organisations of all sizes.

Trusted by **more than 3,500 organisations**, **STYLE processes over 500,000 payslips every month**, making it one of Bulgaria's leading HR and Payroll software solutions.

STYLE - Complete Payroll, HR & Workforce Management Platform

By combining Payroll, Human Resources and Workforce Management in a single platform, **STYLE** simplifies day-to-day operations, improves efficiency and ensures compliance with Bulgarian labour, social security and tax legislation.

Available in both single-company and enterprise multi-company editions, **STYLE** is built on Microsoft technologies and provides a modern, intuitive user experience on Windows 10, Windows 11 and Windows Server.

STYLE - Complete Payroll, HR & Workforce Management Platform

- **20+ years** of payroll and HR software expertise;
- Trusted by **over 3,500 organisations**:
 - small, medium-sized and large organisations
 - government institutions and public administrations
 - commercial, industrial, Payroll and HR service companies
- **500,000+ payslips** generated every month;
- **ISO/IEC 27001 certified** information security;
- Continuous legislative updates;
- Local implementation and support;
- Scalable architecture.

Why Choose STYLE Platform

Integrated HR & Payroll	Manage the entire employee lifecycle in one unified platform.
Legislative Compliance	Ensure compliance with Bulgarian labour, tax and social security legislation.
Flexible Deployment	Deploy STYLE with an MS Access (MDB) or Microsoft SQL Server database. Extend the SQL Server edition with STYLE Web for secure employee and manager self-service, electronic documents and digital workflows.
Scalable Architecture	Scale from a single company to complex multi-company organisations without changing your software.
Powerful Automation	Automate payroll processing, reporting, government submissions and document generation.
Advanced Security	Production databases remain on your own infrastructure. Combined with ISO/IEC 27001-certified processes and role-based access control, STYLE provides enterprise-grade security.

ISO Certifications

Protecting customer information is a fundamental part of MSoft's business. MSoft is certified to **ISO/IEC 27001:2022**, the internationally recognised standard for **Information Security Management Systems (ISMS)**. The certification covers the design, development, implementation, sales and maintenance of software solutions, demonstrating our commitment to the highest standards of information security.

STYLE gives organisations complete control over their data. All production databases remain within the customer's own IT infrastructure, while MSoft neither hosts nor stores customer production databases. This approach ensures full ownership of business information and supports compliance with internal security policies and regulatory requirements.
